

## EXPERIENCE

.....

### Senior Product Designer

Bolt | Jan 2022 - Present

Designing on the Financial Products team which focuses on mission critical systems, products and solutions that companies and consumers alike will rely heavily on. Making online shopping easy, trusted, and consistent for millions of shoppers in an effort to democratize commerce.

### Product Designer

Meta | 2018 - 2021

Messenger

Led the design for the core messaging and calling experience for Messenger Desktop. Defined the visual design system for desktop and web to create consistency. Created the mobile flows for the public launch of Messenger Rooms. Conducted user interviews and usability testing on new and pre-existing features to evaluate successes, pain points, and growth opportunities.

Instagram

Designed the audio-only calling experience on Instagram. Strategized and executed on user acquisition roadmap and experiments in collaboration with product managers and UX research on the Growth team. Partnered closely with engineers on design spec hand-off and design reviews.
